

Hello, I'm Jon!

I'm passionate about all things animation; it is my goal to someday help create and develop films and shows to entertain all ages.

Beyond animation, I'm a massive Doctor Who fan. I also play Dungeons and Dragons. I once helped protect the props of a long forgotten children's series about talking boats called 'Tugs'. I'm an advocate for people on the autistic spectrum, much like myself. This led to recently being a part of the Kilkenny Animated Festival as a spokesperson in a panel about Neurodiversity in the industry.
